T4040

T4040 - BM HD EX Bypass Log Grapple

Mounts onto 3 - 6 Ton excavators, coming fully assembled & ready to go to work.

Our rotator hose guard keeps hoses out of harm's way, protecting them from stray branches, debris, and direct impacts to the grapple!

The optional Heeling Bar allows for better control over a log with the dangle style excavator grapple.

Hardox Wear Plate increases the grapple's strength and durability while maintaining a lighter grapple.
